

IMPROVED STATIONARY GEARS

OLD
O.E.M.
VERSION

- Made of composite material
- Prone to wear and corrosion

NEW
A.E.P.
VERSION

- Made of high quality metal
- More durable and longer lasting for a higher quality starter

The stationary gears have been improved in the following marine starters:

SDR0031*: Used on Cobra, Mercruiser, Thermo Electron, Yamaha, Volvo Penta, (Others), with a V-6 or V-8 Engine. For a Mounting Bolt Kit to use when replacing a 10MT style starter with a PG260 style starter, use HDW9301.

*Improvements also apply to SDR0031-L and SDR0031-M.

SDR0059: Used on Mercruiser, OMC, Thermo Electron, Volvo Penta, (Others), With a 4, 6, or 8cyl. engine. Also Used on Lift Truck Applications. For a Mounting Bolt Kit to use when replacing a 10MT style starter with a PG260 style, use HDW9303.

SDR0252: Used on Mercruiser 5.7L, 6.2L, 7.4L, 8.1L, 8.9L, 9.0L Engines

SDR0253: Used on Mercruiser, Volvo-Penta Marine, and Clark, Hyster Lift Trucks

SDR0272: Used on Various Marine Applications

High quality metal gear is embedded into the composite material for added stability and performance
